

# Y10 - A guide for filling in the divers forms (Tioman)

Here are the basic purposes/requirements for these forms:

## 1. "DSD Paperwork" - PADI Discovery Scuba Diving Participant Statement.

For those who are **First Time Divers** doing the Discovery Dive.

This form includes a short Medical Questionnaire. If a student answers ANY of these questions with a YES, then they must have a doctors form signed off with them, before we can get them in the water. (Please note that this form is 4 pages, so to save a lot of paper, it can be made into a booklet, with 2 pages per side.)

**IMPORTANT:** All students need to fill this out. If they have answered "No" to all the questions, then they don't require a doctor's signature. If they have answered "Yes" anywhere, then they will require a Doctor's signature on page 2 - as they will need to be certified that they are fit for diving.

## 2. "Diver Reg" - Certified Diver Registration, Liability Release & Express Assumption Of Risk

This is for anyone who is **already a certified diver**.

It must be filled out and co-signed by a parent. Proof of dive certification must also be brought to Tioman, or a copy of the certification card can be submitted to the school with the rest of these documents to be sent to us in advance.

**IMPORTANT:** Parents's signature is a must, right? Absolutely - if they are under 18, all their forms will require a parent/guardian's signature. If they don't have one, they will not be allowed to dive.

## 3. "Medical Statement"

Medical Questionnaire for the **Doctors' sign off** for ALL students.

If any of the students answer YES to any of the questions on the paperwork, then this medical questionnaire form must be completed by a doctor, to state that the student is 'FIT TO DIVE' and the completed PAGE 2 must be brought to Tioman, or a copy
