20 years ago, I was diagnosed with a stage three synovial sarcoma in my right leg. This is a rare form of cancer found in soft tissue. After a year of intensive treatment, which included surgery, radiation therapy and chemotherapy, I was lucky enough to go into remission and have been ever since. While the treatment itself was very difficult at times, I will be forever grateful for the amazing care given by the doctors and staff at the Royal Marsden Hospital in London.

Today I live a fulfilling life because of the incredible research that makes cancer treatments like mine possible. I hope that you will join me in helping the Terry Fox Foundation to support cancer research in Hong Kong. Together we can make a difference!

20年前, 我被診斷出右腿患有三期滑膜肉瘤。這是在軟組織中發現的罕見癌症。經過一年的強化治療, 包括外科手術, 放射療法 and 化學療法, 我很幸運地獲得了緩解, 從那以後一直如此。儘管有時治療本身非常困難, 但我將永遠感激倫敦皇家馬斯登醫院的醫生和工作人員提供的出色護理。

今天, 我過著充實的生活, 這是因為令人難以置信的研究使像我這樣的癌症治療成為可能。我希望您能與我一起幫助 Terry Fox Foundation, 支持香港的癌症研究。只要齊心協力, 我們可以有所作為!
